

GENERA

TECHNOLOGICAL BROKERAGE EVENT in Energy and Environment

Within the framework of Genera 2016, Fundación para el Conocimiento madri+d will organize an international transfer technology day to exchange information between possible technological partners. The main objective of the event is to create a meeting forum for companies, research institutes, universities and other organizations that are actively engaged within the field of renewable energy and environment.

GENERA 2016, Energy and Environment International Trade Fair, will hold its 19th edition from 15th to 17th June 2016 as a trade meeting point and a place to do business for the renewable energy sector. genera 2016 includes the following sectors:

- Solar Energy (thermal and photovoltaic)
- Cogeneration
- Biomass
- Wind Energy
- Hydraulic Energy
- Wastes
- Hydrogen and Fuel Cells
- Coal, Gas and Crude Oil
- Other energies (tidal, geothermal...)

HOW TO PARTICIPATE

Participants should register themselves at the website of the event, www.b2match.eu/genera2013, providing at least one technology profile describing either a technology offer or a technology request. All technological profiles will be published at the event online catalogue, which is continuously updated according to the profiles submitted and represents the basis to select partners for discussions and to organize bilateral meetings. Shortly before the event, each participant having requested a meeting will receive a personalized meeting schedule.

Why to participate

- To get the latest information on energy related research findings
- To meet and share views with researchers and experts from your business field
- To present, discuss and develop new projects
- To initiate cross-border contacts and co-operations
