

9th Call for Proposals Info Day

SPRI – Alda. Urquijo, 36 - Bilbao

Clean Sky is the Aeronautics largest European Research Programme developing innovative, cutting-edge technology aimed at reducing CO₂, gas emissions and noise levels produced by aircraft.

The ninth open Call for Proposals [CfP09] of Clean Sky 2 is expected to be launched end of **October/early November 2018**.

This Infoday in Bilbao will **clarify practical aspects of this CfP09** and some of the topics of this call.

More info about the call: cleansky.eu/calls
