

YEARLY CALLS FOR PROPOSALS

INNOVATION-DRIVEN,  
CLOSE-TO-MARKET  
RESEARCH AND  
DEVELOPMENT  
PROJECTS IN  
MANUFACTURING

**MANUNET** supports innovation-driven, close-to-market research and development projects in manufacturing. It aims to encourage cross-border value chains that emerge from advancing technologies.

During every first quarter of every new year, MANUNET opens a call for proposals to co-fund manufacturing research projects by preferably small and medium-sized enterprises (SMEs) and their strategic partners. Any short-term projects with small-medium consortia are

expected. Funding is dependent on national and regional programmes. More than a decade of yearly calls has proven MANUNET as an ideal complementary programme halfway between horizon 2020 and the national/regional funding programmes.
